Important to Remember

Research shows that the Performance of a Match Official impacts the development and experience of a player.

(Bar-Eli et al., 1995 p.77).

What is Long Term Officials Development?

Long Term Officials Development (LTOD) is creating the Pathway to Match Officiating Excellence:

- The players deserves the best product available
- Research shows that officiating is not considered an integral part of the game by Sport Leaders and decision makers
- Ontario recognised this need, and is now leading the country with an innovative and ground-breaking Match Officials Development program

Terminology

- When a 'team' or 'group' of referees and assistant referees are referred to, they are referred to as **Match Officials** as per FIFA guidelines
- When they are being referred to in their individual roles, we refer to them by that role:
 - **Referee**,
 - **Assistant Referee**,
 - **Fourth Official**
- The term 'linesman' is no longer used, it is now Assistant Referee

Match Officials

Referee

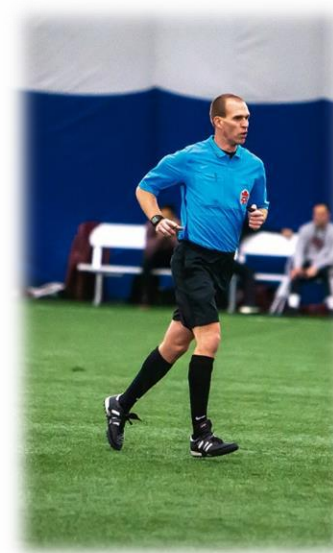

Asst. Referee

Fourth Official

Did you know?

- It takes the average Referee 12 years of training and commitment to reach the National list or higher. Often taking on the role of Assistant Referee in higher level games before being assigned as a Referee.
- The main reason for Match Officials to stay is because they just love the game (Ontario Soccer survey results 2012-2016)

Did you know?

- A Referee in a high level provincial, or professional game will run more than 13KM in the game
- There are over 385 split second decisions made in a 90 minute game. That is one decision every 23.3 seconds. Research shows these decisions are 98% correct (www.thestatszone.com)

Did you know?

- Referees Grade 7 and above are assessed based on competencies designated by FIFA, even at the District level
- 24% of our Match Officials are female

Research

Through our 3 years of research (2014-2017) we found the following:

- There is a lack of consistent strategies to retain, educate and develop Officials across all sports.
- Little or no understanding that Officials need opportunities to develop and train the same as the players
- Technical programming at the Club rarely includes Officials Development, yet the role has a large impact on the technical side of the game.
 - Minimal field time provided for Match Officials to train and practice
 - Minimal resources put towards consistent education opportunities
 - Minimal financial support for development Match Officials

Findings

“As a parent and/or coach, I want a referee in the middle that knows all the rules”

This creates an Expectation of Perfection in Performance – predominately at the Youth Levels of competition. This often leads to verbal abuse directed at the Youth Official:

2019 - Abuse and dissent from Parents and Coaches the #1 reason for new (1st to 2nd year) Match Officials leaving the game (39%)

The Development Pathway explained

How does Match Officials Development relate to Player Development and the Canada Soccer Player Pathway?

CANADA SOCCER PLAYER PATHWAY

Long Term Officials Development

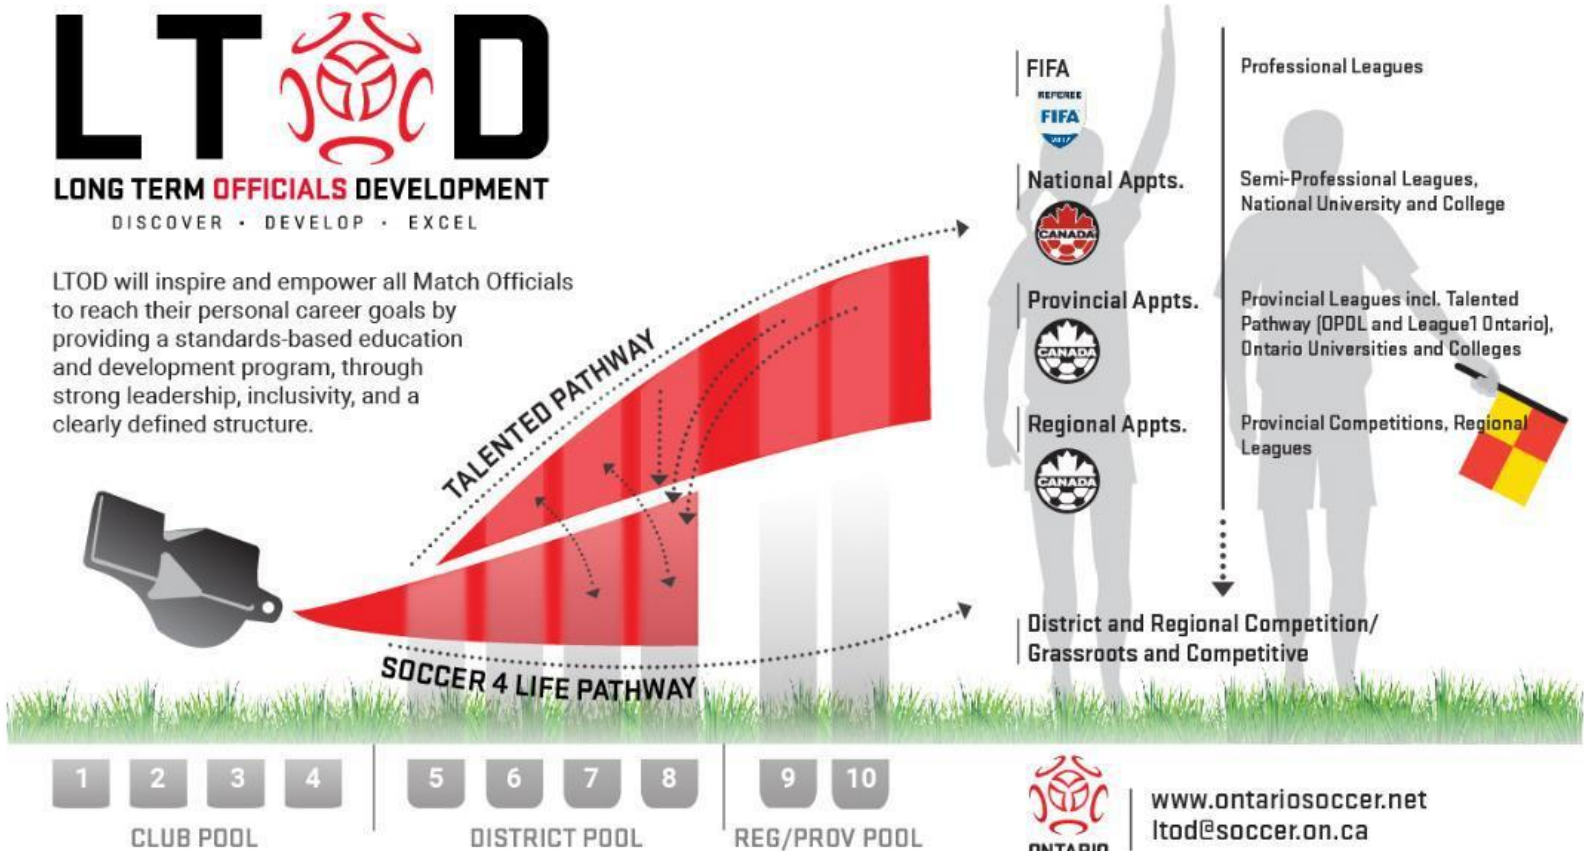

The Match Officials Development Pathway is similar to the Player Development Pathway

The majority of the new Match Officials, and Match Officials at the Club Level are Grades 1, 2 and 4.

Currently Grade 3 is 'unused' and will be utilized at a later date.

LTOD will inspire and empower all Match Officials to reach their personal career goals by providing a standards-based education and development program, through strong leadership, inclusivity, and a clearly defined structure.

Match Officials Development Pathway

Hello, I am your Referee today . . .

If your child is playing, I am most likely of youth age

There will be decisions I get wrong

I am still learning

My decisions are not based on favoritism

Remember It's Just A Game

Thank you
